

Make Your Own Storm Hound

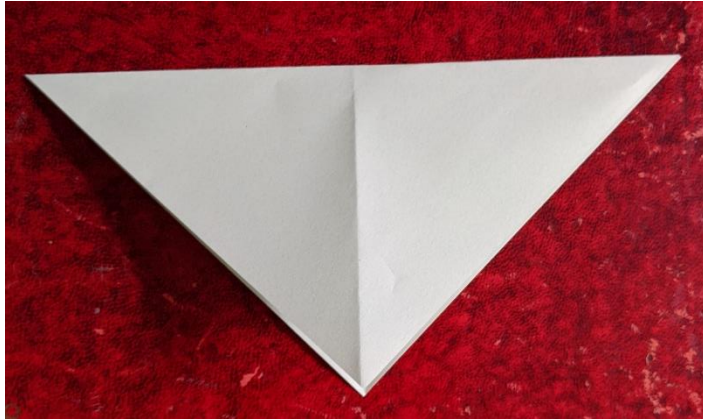

Choose a square of paper. Put it in front of you so it makes a diamond shape.

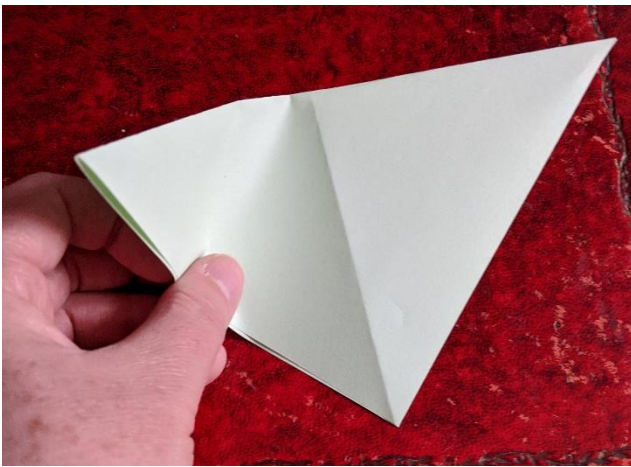

Fold the paper in half to make a triangle.

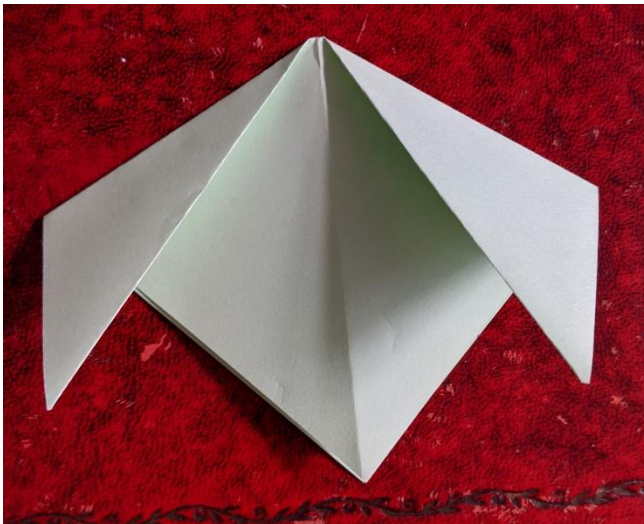

Now open the paper up again and turn it so the crease runs from top to bottom. This shows you the middle of the stormhound's face.

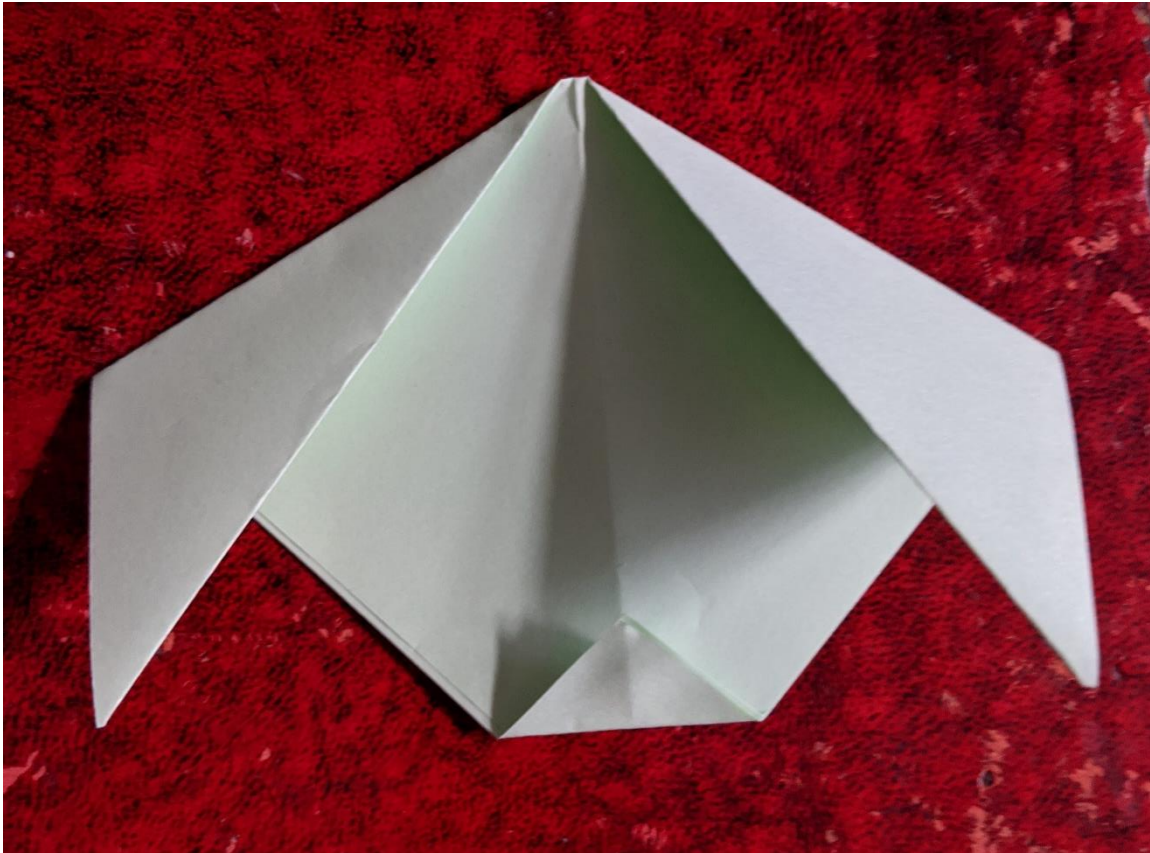

Fold the paper back down into another triangle. This time you'll have a crease down the middle.

The two top corners will be your stormhound's ears. Fold them down to make whatever size ears you like. (I did big ones but you can do something different – be creative!)

Finally, make you stormhound's nose, by turning up the bottom corner.

Now you can colour your stormhound. Have fun!
